

615-4715 (20-045) Hand Generator

Description:

Our 5 volt Hand Generator is enclosed in a sturdy acrylic case to protect and display the internal components. Turn the ergonomic hand crank in either direction, and watch as your hand drives four gears which are connected to a small dynamo. The efficient design produces enough electricity to light a small incandescent light bulb; the faster the crank is turned, the brighter the bulb becomes. Also includes cable to attach the generator to a volt meter.

Warranty and Parts:

We replace all defective or missing parts free of charge. Additional replacement parts may be ordered toll-free. We accept MasterCard, Visa, checks and School P.O.s. All products warranted to be free from defect for 90 days. Does not apply to accident, misuse or normal wear and tear.
